Papplewick Pumping Station Trust is a Registered Charity
No.1097618.

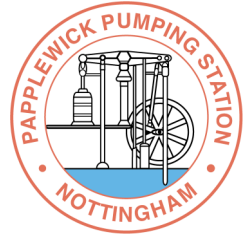

Family and Friends

Each participant may bring one friend or family member to photograph and video the day's proceedings. For a small fee of £5 they may join the participants for lunch.

Please note that friends or family may not actively take part in any of the sessions and we ask that they follow the instructions of our volunteers and site staff at all times to ensure safety.

Papplewick Pumping Station

“Experience Steam”

Experience a day with a difference!

2020 Booking information

 Heritage
LOTTERY FUNDED

Do you dream of running a magnificent, steam driven beam engine?

Or may be you know someone whose ambition has always been to lift the valves of a Beam Engine or stoke a Lancashire Boiler?

If so, then our one day programme **Experience Steam at Papplewick Pumping Station** is just for you.

There are two dates available for 2020:

Saturdays May 23rd & August 29th. Group size is strictly limited to 10 places per session, so early booking is recommended.

As well as helping to stoke the hand fired Lancashire boilers, you will also get the opportunity to run one of the original twin beam engines, built by James Watt & Co. in 1884 and the 1922 Robey Winding Engine previously of Linby Colliery.

You will also enjoy a guided tour around the Pumping Station and the 1879 reservoir. Plus you'll learn the art of being a blacksmith and working the Papplewick forge.

Lunch and refreshments will be provided and you will receive complimentary membership to the Papplewick Association giving you free unlimited access on open days and steaming events for a whole year. It also entitles you to volunteer at the Pumping Station should you wish to do so.

Outline Programme and Timetable

(Actual timings may vary slightly on the day)

- 09.00 Coffee, welcome & safety briefing
- 09.30 Introductory Tour
- 10.15 Workshop 1 (Boiler/Engines/Forge)
- 11.00 Coffee
- 11.30 Workshop 2 (Boiler/Engines/Forge)
- 12.15 Workshop 3 (Boiler/Engines/Forge)
- 13.00 Lunch
- 13.45 Workshop 4 (Boiler/Engines/Forge)
- 14.30 Visit to underground reservoir
- 15.30 Tea & Presentation of certificates

The aim of the workshop sessions is to afford you the opportunity to enjoy a unique hands on experience. All workshop activities are led by experienced volunteers. The nature of the day requires all participants to heed carefully the instructions of our volunteers at all times to ensure safety.

You are advised to wear comfortable old clothing and stout shoes (a boiler suit is recommended). Participants must be over 18yrs and moderately fit to take part.

Tuition will be in small sub groups. Each group will work on a carousel basis to enable all participants to cover the four main workshop activities and enjoy the broadest range of experience possible on the day.

Maximum & Minimum Numbers

Each Experience Steam day can take a maximum of 10 participants. But we require a minimum of 4 participants for the day to go ahead.

On the rare occasion that only three bookings or less are received for either date we will reschedule the session to May 24th and August 30th. The programme will remain the same except that it will be a public steaming day. Alternatively, you may ask for a refund or we can transfer your place to the next scheduled session. Please ensure that you keep these extra dates free should we have to reschedule.

The Perfect Present

Our **Experience Steam** day makes a superb birthday or Christmas gift or something extra special for Father's Day or even a retirement gift. For further details please contact:
